

tesseract_collision
/include/tesseract_collision
/bullet/tesseract_convex
_convex_algorithm.h

```
graph BT; A["tesseract_collision  
/src/bullet/tesseract  
_collision_configuration.cpp"] --> C["tesseract_collision  
/include/tesseract_collision  
/bullet/tesseract_convex  
_convex_algorithm.h"]; B["tesseract_collision  
/src/bullet/tesseract  
_convex_convex_algorithm.cpp"] --> C;
```

The diagram illustrates a dependency structure where two source files, located in the `/src/bullet/tesseract` directory, include a header file located in the `/include/tesseract_collision/bullet/tesseract_convex` directory. The header file is `_convex_algorithm.h`. The source files are `_collision_configuration.cpp` and `_convex_convex_algorithm.cpp`. Arrows point from the source files to the header file, indicating the direction of the include relationship.

tesseract_collision
/src/bullet/tesseract
_collision_configuration.cpp

tesseract_collision
/src/bullet/tesseract
_convex_convex_algorithm.cpp
